. aragc aes 128 ssh and now he wants to use the rig to acess through the rig i am pretty sure he used some sort of exploit to do so... A: Revo uninstaller pro 5.4.11 portable full Good news, Your antivirus can help you: First of all, press: windows key + r Open the system control center then open the hidden files tab You will see the file named advancedr in the documents folder Remove it from there and then start this process as administrator Then it works fine. A: advancer.exe is the file causing the problem. If you want it fully removed and re-installed the whole installation process, it's not too difficult. Press Windows key + R to open the Run prompt Run "regedit" and locate and remove the "advancedr.exe" file from: C:\Program Files\Revo Uninstaller Important: Before you get rid of the file, Close all your applications. Save any projects, documents or files you're not sure of. The next step is to remove the Revo's registry database by following these steps: Press Windows key + R to open the Run prompt Type "regedit" and press Enter Locate the following registry key: HKEY_LOCAL_MACHINE\Software\Revolution\Uninstaller Right-click the Uninstaller key and select Delete Click Yes to confirm Click Yes to confirm If the registry is still intact after that, then it is re-installed successfully. Now, run Revo and it's all there. A: Not the solution I would have thought. I would open a guest session and try to get him to download the uninstaller as a file and then let him go. I would take a backup of his desktop first. Q: How do I change the icon in a Galaxy Note 2? Is there a way to customize the icons in the app drawer on the Galaxy Note 2? As far as I know, there's no way to change the icons of your apps in the app drawer, but I want to be able to choose different icons for different apps if the icons are drawn by the OS or by Samsung. In the case where the icon is designed by
