The latest and possibly the most advance anti-scam tool around is ready to offer free and assured services for victims of scam callers. Call scams, in fact, are on the rise and cases of victims report over \$8 billion damage every year. Moreover, the scams become more sophisticated all the time, making it more and more difficult for criminals to be identified. For this reason, it is time to set up a more efficient way of preventing scams, as well as it is the time to set up a secure way of calling our friends, family and other contacts via Voice over Internet Protocol (VoIP) calls. VoiceOverZone is an application that allows you to enjoy premium calling experiences while getting paid to do so. VoiceOverZone allows you to call premium numbers at competitive rates and your call costs are billed via the platform's cryptocurrency iZAR, up to 3000 minutes in a month. You can get information and report suspicious or scam calls on the platform, or you can use the platform's built-in voice and text messaging service by choosing a tier to go with one of the options listed on the platform's website. Please Note: You do not need to install a peer-to-peer (P2P) application to make or receive iZAR. The service is compatible with any Android, iOS or Windows device and all platforms are accessible via desktop, Android and iOS applications. You can purchase VOZ tokens through any Windows, MacOS or Linux compatible cryptocurrency exchange or directly via the project's website. The service is a 100% free of charge and chargebacks are not possible. You can start calling premium numbers, while you are earning free and even more reliable premium calling in the next two weeks, the application is ready to load. Please Note: You can call premium numbers for free through the official VoiceOverZone Call Service. Exchange fund, on the other hand, uses a hybrid model that combines the advantages of a centralized and decentralized exchange. Each exchange is controlled by a local moderator who is in charge of each exchange. These moderators are required to follow KYC process, avoid funds stealing, and make sure that the exchange does not operate under multiple addresses and that the exchange is only a victim of the attack. This service is a safe way to exchange fiat money for cryptocurrencies by eliminating the need for online exchanges like LocalBitcoins. A useful part of this service is that you do not
