Train to Busan To.Q: Filter/select with IN in many column Imagine these table with Id (primary key) and CodeN (n-char) id CodeN 1 A1A 2 B1B 3 B1C 4 C2C 5 A2A 6 C2C 7 B2B 8 A2A I need to select all records with the code "A" in "CodeN", i need to get this results: id CodeN 4 C2C 5 A2A Using PHP with PDO The problem is to create the query, looking at the above example the query should be: Select * from mytable where CodeN in (A1A, A2A) But I can't figure a way to generate a query looking to a column containing in values in a column. So I tried: Select * from mytable where CodeN in (A1A, A2A) But it doesn't work. Is possible? Thank you A: Try this: SELECT * FROM mytable WHERE CodeN IN (SELECT CodeN FROM mytable WHERE CodeN LIKE '%A%') import 'package:flutter/material.dart'; import 'package:intl_plugin/intl.dart'; import 'package:test/test.d
