Its interface is very user-friendly, and thanks to an improved version of the aforementioned WordPerfect 5.0, this application is very intuitive and can be used even by novices. All that stands in the way of you using this wonderful application, is the fact that you must connect a keyboard, monitor and mouse. You can, however, save on screen size by setting it to one screen, which is of course possible by using your mouse. By now, you might be asking yourself how to make this application work. A simple drag and drop feature enables you to transfer an external file (in.PPT or.RTF format) from one part of the application to another. Once there, you can edit it by simply using a double click. On the other hand, thanks to an adjustable keyboard, you can easily change the font, text color and background color, and you can also zoom the text, which enables you to clearly read your work. If you're wondering how to save your work, you can simply click the save button and close the application. We highly recommend you to download Sagee Presentation! It is a useful application that can be used to improve presentations in a professional way. Description: Sagee Presentation is a program that makes it possible to edit, show, and compare presentations.
